

OMER BIN ASIF

AI Engineer / Designer

omerchaudhry760@gmail.com Bonn, Germany github.com/0giinn0

ABOUT

AI Engineer building robots, designing interfaces, and occasionally breaking both. Studying Artificial Intelligence at IUBH Bonn. I build things with machine learning, then fix them with more machine learning. Previously a designer — so I've been judged by both algorithms and clients.

EDUCATION

Bachelor of Artificial Intelligence <i>IUBH — Bad Honnef, Germany</i>	Ongoing
Pre-Engineering <i>PEA — Dubai, UAE</i>	2016–2018
Design and Technology <i>Arab Unity School — Dubai, UAE</i>	2014–2016

EXPERIENCE

English Tutor <i>Engoo — Remote</i>	2022–2023
- Delivered 1:1 English lessons to international students - Created custom course materials and lesson plans	
Operations Manager & Designer <i>MDKB — Lahore, Pakistan</i>	2021–2022
- Managed contractor workflows and design delivery - Coordinated client expectations and project timelines	
Freelance Designer <i>Upwork, Freelancer</i>	2017–2023
- Logo design, branding, and visual identity - Video editing with DaVinci Resolve - YouTube thumbnail and social media design	

LANGUAGES

English Fluent	Urdu Fluent	Punjabi Fluent
German Basic	Arabic Basic	

SOFTWARE & TOOLS

VS Code	Cursor	OpenCode
Copilot	ChatGPT	Claude
Adobe CC	Figma	Blender
Krita	Canva	DaVinci

SKILLS

AI & Machine Learning	Python Development	Data Analysis	UI/UX Design
Character Design	3D Modeling	Software Development	Critical Thinking
Problem Solving	Leadership		

PROJECTS

OmriCode Fully local, unrestricted AI IDE — Electron desktop app with code editor, terminal, 3D viewer, AI chat, 12 personality profiles, 9+ LLM providers, and editor plugins for VS Code, Godot, and Blender. TypeScript, Electron	AI / IDE
Aud.io Flutter music player with golden spiral navigation, bento box UI, 7 themes. Node.js server with yt-dlp. Searches YouTube Music, SoundCloud, podcasts, local files. Dart, JavaScript	Music App
PhreeDee Local AI-powered 3D mesh generation — converts images into 3D models using Hunyuan3D on GPU. Electron app with visual workflow editor, mesh processing, extension system. TypeScript, Python, C++	AI / 3D
AR Deko AR room redecorator — place furniture in real space before buying. React + Three.js + WebXR with hit-test API. 20+ 3D models, measurement tools, PWA installable. TypeScript, CSS	AR / WebXR
Rou Tein Habit tracking application — build consistency, track streaks, gamified with XP, coins, badges, and a spinning 3D orb. React Native, Next.js	Habit Tracker
Shape Grid Interactive 3D grid with bloom post-processing, 6 shape types, cursor-following extrusion, backlighting, and dat.gui customization. Three.js, WebGL	Creative Code
